

*In loving memory of
Cassandra Anne Wilson
“Swanna”*

Cassandra Anne Wilson was a student at Minisink Valley High School, a Varsity Cheerleader, and part of the medical assistant program at Orange-Ulster BOCES. Cassandra, our “Swanna”, died tragically this past July.

She was a wonderful young lady; genuinely kind and caring to all, with a love for life. She was an aspiring EMT, hoped to become a doctor, peer advocate for domestic and teen violence, and an advocate for organ donation.

As a result of her death, she continued to give the gift of life by donating her organs. In her memory, her family and close friends started Cassandra’s Project., and also the Minisink Valley HS Cheerleader Scholarship Fund. Two things that Cassandra truly believed in and advocated for — the MVHS Cheerleading program, always trying to make sure her teammates were able to follow their dreams, and also being an advocate for organ donation.

Cassandra is smiling down on all of us always, cheering all of us on, and doing what she loved to do, cheering your hearts out — stunting, tumbling, dancing, smiling and laughing... because that’s our Swanna.

“Fly high baby girl!”
